ITEM AND ISSUE: *BCC Meeting March 13, 2018.*

Approval of Change Order No. 4 to Agreement No. 2017-0226-PW/KE Between Santa Fe County and RCC, LLC in the Amount of \$54,426.42, Excluding NM GRT, for the Agricultural Extension Office Remodel at the Santa Fe County Fairgrounds for a Total Contract Sum of \$1,119,934.87, and Grant Signature Authority to the County Manager to Sign the Purchase Order. (Bill Taylor, Purchasing Division)

ISSUE:

The Santa Fe County Projects Division has requested the approval of Change Order No. 4 for additional construction services for the remodel of the Agricultural Extension Office located at the Santa Fe County Fairgrounds.

The items added to the project with the approval of change order No. 4 will increase the contract an additional \$54,426.42 (excluding NMGR). The aggregate of all prior change orders 1, 2, 3 and this change order No. 4 will result in a 10% increase to the contract amount, totaling \$1,119,934.87, and therefore requires BCC approval. The proposed improvements are facilitated by other project savings that allow the completion of the scope of work within the project budget.

BACKGROUND:

Change Order No. 4 adds several construction items to the Agricultural Extension Office project at the Santa Fe County Fairgrounds. The items to be added are largely requests made by the County or the Extension Office Director and add functionality to the project. The main items to be added are to enclose the underside of the new portal, the addition of a new concrete sidewalk around the building for better access and circulation. The addition of new underground electrical service lines will support PNM expansion of new service to the building. Other items will include additional interior improvements for better appearance and to enclose heat ducting, as well as other cosmetic improvements. Also included is the repair of interior finishes after the existing telephone service panel is removed when the user moves back into the remodeled facility.

Change Order No. 1 added \$20,671.94 (within CM approval authority)
Change Order No. 2 added \$13,268.20 (within CM approval authority)
Change Order No. 3 added \$23,968.31 (within CM approval authority)

ACTION REQUESTED:

Approval of change order No. 4 to Agreement No. 2017-0226-PW/KE between Santa Fe County and RCC, LLC in the amount of \$54,426.42, excluding NM GRT, for the Agricultural Extension Office Remodel at the Santa Fe County Fairgrounds for a total contract sum of \$1,119,934.87, and grant signature authority to the County Manager to sign the purchase order.

CHANGE ORDER JUSTIFICATION (Provide definitive reason for proposed change order)

- 025 Add** Metal panels at the underside of Portal Roof for mitigation of nesting birds and to enclose structural steel elements that cannot be contained otherwise. \$15,411.76
- 026 Add** Sheetrock over exposed steel beam at Entry Admin. The transition from the admin staff and the corridor in the original building has left the steel beam exposed which should be enclosed for safety a completing the ceiling \$ 1,324.96
- 027 Add** Acoustical Soffit panel at steel beam in copy room. The drop ceiling is exposed and open at the side. An enclosure panel will mitigate this \$ 350.00
- 028 Add – Demo, patch, paint, etc.** old phone panel to exhibition hall at move-in of Extension Office staff to the new facility. The old phone service to the exhibition hall must remain operational and in place until the move to the new building. The contractor must remove and patch the old panel wall area which is located within the remodel area.
\$ 1,456.20
- 029 Add** exterior 4-gang electrical box at portal: An exterior electrical outlet was missed on the plans by the architect. Exterior electrical service in the Portal area is needed for proper functionality \$ 500.00
- 030 Add - Paint** exposed ductwork in east Storage/Conference room. The exposed duct sealer leaves the duct in an unfinished state and the painting is required to complete the installation \$ 1,756.20

031 Add – Trenching, conduit & wire required by PNM (outside of meter and service panel). PNM will install a new power pole and pad-mount transformer but will not bring its service to the building. The contractor must trench, install underground conduit and cable from wall mount meter and panel to the transformer to complete the installation. \$13,167.50

032 Add – New concrete sidewalk at East, North and West side of building (see 032 above). \$ 8,469.84

033 Add Metal Landscape Border at new ADA path. The new ADA path was installed per plans and specifications, however it is determined that the edge of the path needs to be contained with the edging in order to prevent migration of the gravel surface. \$ 3,512.40

034 Add 3% Bonding \$ 1,378.47

035 Add Admin, P&O @ 15% \$ 7,099.10

CHANGE ORDER JUSTIFICATIONS and COST

- 014 **Add** general conditions for rental of temporary portable restrooms to account for added construction time. \$ 1,216.53
- 015 **Add** vertical structural steel support at west exterior doors from classroom. When demolishing one of the two door openings in the existing concrete block wall it was discovered that the block was hollow and insufficient for supporting the steel lintel above. \$ 1,395.00
- 016 **Add** formwork and grout to vertical CMU at sides of door opening as part of the added support in item 015 above. \$ 650.48
- 017 **Add - Revise** roofing attachment at the high roof area over the classroom and conference room to adhesive (adhered) from mechanical screw fasteners. The screws require full inch of embedment. The existing, exposed wood roof decking is only 3/4" which is insufficient and would allow for exposed screws at all exposed wood ceilings. \$ 1,920.00
- 017 **Add** dropped acoustical ceiling at corridor along north side of front reception office and copy room. This became a required change as the existing low ceiling was as found to be too low to accommodate the mechanical

- ductwork, which was moved to the corridor. Also there is not enough room to contain the plumbing, electrical and mechanical equipment in the copy room ceiling so a drop ceiling will be required to contain all lines and equipment for safety purposes. \$ 2,060.00
- 018 Add - 3 LED lighting fixtures to dropped acoustical ceiling (017 above) the new drop ceiling will require lighting. \$ 800.00
- 019 Add - 2" furring strips 18" on center for wall panel backing and plywood fasteners as part of the added 2" rigid wall insulation. \$ 2,540.20
- 020 Add - 2" rigid foam to the exterior of the old CMU walls to augment insulation value. The building envelope commissioning agent (BECx) has recommended because the old CMU masonry walls are entirely hollow (previously unknown) and do not supply required insulation as required by the NM Energy Code. \$ 9,862.80
- 021 Add 2x wood furring strips to underside of original wood roof beams in low ceiling area. It was discovered upon demolition that there is insufficient depth of the existing 4x6 ceiling beams for installation of the planned recessed light fixtures. Adding the additional depth with the wood furring strips will rectify this issue. \$ 1,107.72
- 022 Add for the Century Link conduit pull box and string. After walking the site with the Century Link engineer to determine the best path for the new phone and data lines (trench and conduit) it was determined that the best path, to avoid existing underground utilities, will require a sharp turn of the service lines perpendicular to the building. A pull box that allows this transition will be required. \$ 1,018.10
- 023 Credit for deletion of the 3/4" rigid exterior insulation that will be replaced by the 2" rigid foam and furring strips as detailed above (see items 19 and 20 above) (\$2,335.87)
- 024 Add bonding, administration, overhead and profit \$3,733.35

Total net increase: \$ 23,968.31

CHANGE ORDER JUSTIFICATION (Provide definitive reason for proposed change order.)

- 07 Trench, place conduit and backfill 420 feet of 3" schedule 40 PVC for new Century Link phone line. The current phone line is out-of-date and would need to be upgraded for current IT standards. Also, bringing in the phone from the NE of the Fairgrounds property will eliminate most of the discontinuation of service that would ensue if the old line were to be upgraded and the County would have to pay the costs of the upgrades to Century Link. In this way Century Link will pay for the new service line cabling and connections.
- 08 Modify structural steel lintels that support the roof structure of the building addition supported at the old CMU wall. This rectifies an unforeseen condition of the existing concrete block that was originally installed without any structural grout fill in the cells (in the 1950's)
- 09 Add wall insulation. While insulation was identified in the walls prior to bid, the location of the insulation was limited in scope and the extent was unknown at the time. The change order will add needed wall insulation to improve thermal and mechanical performance.
- 10 Credit - Use PVC Schedule 40 in lieu of cast-iron waste line pipe as PVC is the industry standard and is the typical material used throughout the Fairgrounds facility.
- 11 Credit - Use PEX plastic water pipe in lieu of copper as it is the industry standard and has ease of maintenance and lower maintenance costs associated with its use.
- 12 Credit - Delete the backflow preventer (BFP) with pressure reducing valve (PRV) as that was installed as part of the new water line installation where the BFP & PRV were required by the City of Santa Fe located at the water meter.
- 13 Credit - Delete 4-masonry, mechanical duct penetration cuts, in the existing CMU wall, as it is not a structurally grout-filled wall. The assumption was that it was a structural wall (as is the standard practice and code requirement at this time), but it was constructed using early mid-20th century building practices that did not require structural grout in the cells of the concrete block masonry units

You are directed to make the following changes in this Contract: (Provide a detailed description of the Scope of the Work.):

1. Trench, place conduit and backfill 420 feet of 3" schedule 40 PVC for new Century Link phone line as directed by the regional Century Link engineer.

2. Modify structural steel lintels that support the roof structure of the building addition (supported at the old CMU wall) as well as adding steel lintels at the wall penetrations for mechanical ducts from the old building to the new addition. Install as directed by the Architect
3. Add thermal insulation to the wall areas identified, in the existing building, which originally had no insulation.
4. Use PVC schedule 40 in lieu of cast-iron gas piping.
5. Use PEX style plastic water piping instead of copper piping.
6. Delete the backflow preventer and pressure reducing valve.
7. Delete 4-masonry cuts in existing CMU wall for mechanical duct penetrations.

NOT VALID UNTIL SIGNED BY BOTH THE COUNTY AND THE ARCHITECT/ENGINEER.

Net increase to Contract Sum	\$ 13,268.20
The new Contract Sum including this Change Order	\$1,040,940.14

The Contract Time will be increased by 14 days.

CHANGE ORDER JUSTIFICATION (Provide definitive reason for proposed change order.)

- 01 Patch T&G ceilings where additional mechanical roof penetrations that were identified during demolition. This condition was unknown prior to demolition of the roof and ceiling assembly.
- 02 Sandblast the existing wood beams and T&G ceilings. The existing wood beams and ceiling were covered by the old ceiling the condition of the finish was not identifiable. The sandblasting will remove the water staining and resurface the exposed wood. And, provide a 'Like-New' finish of the substantial existing woodwork.
- 03 Stain the wood ceiling elements identified in No. 2 above with a clear sealer that will protect it from any future staining.
- 04 Add 2x4 framing at the North end of the existing wall for Plumbing Pipes. During demolition it was discovered that there was insufficient space to contain the plumbing that is to service the new Restrooms. New wall framing applied to the existing masonry wall is required to provide clearance and insulation.
- 05 Replace (4) 4x8 wood beams at the existing low ceiling where, during demolition it was discovered that the beams had been cut in the past compromising their structural integrity.
- 06 Add Door #110 - 2870 SC Wood (Janitor closet in the Kitchen), including hardware and installation, that was inadvertently left off of the Door Schedule included in the Bid Set.

You are directed to make the following changes in this Contract: (Provide a detailed description of the Scope of the Work.)

1. Patch T&G ceilings at previous mechanical roof penetrations
2. Sandblast the existing wood beams and T&G ceiling in the designated areas (Classroom, Conference Room).
3. Apply clear wood sealer to the wood beams and T&G Ceiling in the areas that are sandblasted per #2 above.

ARTICLE 3 EFFECTIVE DATE, TIME OF COMMENCEMENT, SUBSTANTIAL COMPLETION AND AMENDMENTS

3.1 EFFECTIVE DATE

The Effective Date of this Agreement is the date of signature by the County.

3.2 TIME OF COMMENCEMENT

The work to be performed under this Contract shall be commenced no later than ten (10) consecutive calendar days after the date of written Notice to Proceed issued by the County, hereto attached as Exhibit H.

3.3 SUBSTANTIAL COMPLETION

The Contractor shall achieve Substantial Completion of the entire work no later than 180 calendar days from the date of the Notice to Proceed, except as hereafter extended by valid written Change Order. A Certificate of Substantial Completion, attached hereto as Exhibit J, will be issued by the County to the Contractor, as adjusted by any Change Order, attached hereto as Exhibit I.

3.4 TIME FOR COMPLETION AND LIQUIDATED DAMAGES

Should the Contractor neglect, refuse, or otherwise fail to complete the Work within the time specified in this Article, the Contractor agrees that Liquidated Damages in the amount of Five Hundred dollars (\$500.00) shall be assessed each calendar day that expires after the date of substantial completion, as adjusted by any change order, and until issuance by the County of a certificate of Substantial Completion in accordance with Paragraph 7 (Effective Date and Term) of the General Conditions.

- A. It is hereby understood and mutually agreed, by and between the Contractor and the County, that the date of beginning and the time for completion as specified in the contract of the work to be done hereunder are *essential conditions* of this contract and it is further mutually understood and agreed that the work outlined in this contract shall be commenced on a date to be specified in the "Notice to Proceed."
- B. The Contractor agrees that work shall be prosecuted regularly, diligently and uninterruptedly at such rate of progress as will insure full completion thereof within the time specified. It is expressly understood and agreed, by and between the Contractor and the County, that the time for the completion of the work described herein is a reasonable time for the completion of the same, taking into consideration the average climatic range and usual industrial conditions prevailing in this locality.
- C. If the Contractor shall neglect, fail or refuse to complete the work within the time herein specified or any proper extension thereof granted by the County, then the Contractor does hereby agree, as a part consideration for the awarding of this contract, to pay to the County the amount specified in the contract, not as a penalty but as liquidated damages for such breach of contract as herein set forth, for each and every calendar day that the contract shall be in default after the time stipulated in the contract for completing the work.
- D. The amount is fixed and agreed upon by and between the Contractor and the County because of the impracticability and extreme difficulty of fixing and ascertaining the actual damages the County would in such event sustain, and the amount is agreed to be the amount of damages which the County would sustain and the amount shall be retained from time to time by the County from current periodical estimates.
- E. It is agreed that time is of the essence of each and every portion of this contract and of the specifications wherein a definite and certain length of time is fixed for the performance of any act whatsoever and where under the contract an additional time is

allowed for the completion of any work, the new time limit fixed by such extension shall be of the essence of this contract. Provided that the Contractor shall not be charged with liquidated damages or any excess cost when the County determines that the Contractor is without fault and the Contractor's reasons for the time extension are acceptable to the County. Provided that the Contractor shall not be charged with liquidated damages or any excess cost when the delay in completion of the work is due:

1. To any preference, priority or allocation order duly issued by the County;
2. To unforeseeable cause beyond the control and without the fault or negligence of the Contractor, including but not restricted to, acts of God, or of the public enemy, acts of the County, acts of another contractor in the performance of a contract with the County, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and severe weather;

F. Provided further, that the Contractor shall, within ten calendar days from the beginning of such delay, unless the County shall grant a further period of time prior to the date of final settlement of the contract, notify the County in writing of the causes of the delay, who shall ascertain the facts and extent of the delay and notify the Contractor within a reasonable time of its decision in the matter.

- C. Contractors and subcontractors shall make prompt payment to their subcontractors and suppliers for amounts owed for work performed on the construction project within 21 days after receipt of payment from the County, contractor or subcontractor. If the contractor or subcontractor fails to pay its subcontractor and suppliers by first-class mail or hand delivery within twenty-one days after receipt of an undisputed request for payment, the contractor or subcontractor shall pay interest to its subcontractors and suppliers beginning on the 22nd day after payment was due, computed at one and one-half percent of the undisputed amount per month or fraction

- D. In preparing estimates the material delivered on the site and preparatory work done may be taken into consideration.
- E. All material and work covered by partial payments made shall thereupon become the sole property of the County, but this provision shall not be construed as relieving the Contractor from the sole responsibility for the care and protection of materials and work upon which payments have been made or the restoration of any damaged work, or as a waiver of the right of the County to require the fulfillment of all of the terms of the contract.
- F. County's right to withhold certain amounts and make application thereof. The Contractor agrees that it will indemnify and hold the County harmless from all claims growing out of the lawful demands of subcontractors, laborers, workmen, mechanics, material men, and furnisher of machinery and parts thereof, equipment, power tools, and all supplies, including commissary, incurred in the furtherance of the performance of this contract. In paying any unpaid bills of the Contractor, the County shall be deemed the agent of the Contractor, and any payment so made by the County shall be considered as a payment made under the contract by the County to the Contractor and the County shall not be liable to the Contractor for any such payments made in good faith.

The Architect/Engineer/County will thereupon promptly investigate the conditions, and if they find that they materially differ from those shown on the Plans or indicated in the Specifications, they will at once make such changes in the Plans and/or Specifications as they may find necessary, any increase or decrease of cost resulting from such changes to be adjusted in the manner provided in Paragraph 15 above.

21. CLAIMS FOR EXTRA COST

- 21.1 No claim for extra work or cost shall be allowed unless the same was done in pursuance of a written order of the Architect/Engineer approved by the County, as aforesaid, and the claim presented with the first estimate after the changed or extra work is done. When work is performed under the terms of General Conditions, the Contractor shall furnish satisfactory bills, payrolls and vouchers covering all items of cost and when requested by the County, giving the County access to accounts relating thereto.

22. CONSTRUCTION SCHEDULE AND PERIODIC ESTIMATES

- 22.1 Immediately after execution and delivery of the Contract, and before the first partial payment is made, the Contractor shall deliver to the County an estimated construction progress schedule in a form satisfactory to the County, showing the proposed dates of

commencement and completion of each of the various subdivisions of work required under the Contract Documents and the anticipated amount of each monthly payment that will become due to the Contractor in accordance with the progress schedule. The Contractor shall also furnish on forms to be supplied by the County (a) a detailed estimate giving a complete breakdown of the Contract sum and (b) periodic itemized estimates of work done for the purpose of making partial payments thereof. The costs employed in making up any of these schedules will be used only for determining the basis of partial payments and will not be considered as fixing a basis for additions to or deductions from the Contract price.

- 22.2 The Contractor shall, within 5 days after the effective date of Notice to Proceed, prepare and submit 5 copies of a progress schedule covering project operations for the Contract period. This progress schedule shall be of the type generally referred to as a Critical Path Method (CPM), Critical Path Schedule (CPS), and Critical Path Analysis (CPA), and other similar designations. The CPM shall be used to control the timing and sequences of the project. All work shall be done in accordance with the CPM Planning and Scheduling. A written statement of explanation shall be submitted with the progress schedule. All costs incurred by the contractor to implement the CPM shall be borne by the Contractor.

23. ASSIGNMENTS

- 23.1 The Contractor shall not assign the whole or any part of this Contract or any monies due or to become due hereunder without written consent of the County. 24. MUTUAL RESPONSIBILITY OF CONTRACTORS

- 24.1 If, through acts of neglect on the part of the Contractor, any other Contractor or any subcontractor shall suffer loss or damage on the work, the Contractor agrees to settle with such other Contractor or subcontractor by agreement or arbitration if such other Contractor or subcontractors will so settle. If such other Contractor or subcontractor shall assert any claim against the County on account of any damage alleged to have been sustained, the County shall notify the Contractor, who shall indemnify and save harmless the County against any such claim.

25. SEPARATE CONTRACT

- 25.1 The Contractor shall coordinate its operations with those of other contractors. Cooperation will be required in the arrangement for the storage of materials and in the detailed execution of the work. The Contractor, including its subcontractors, shall keep informed of the progress and the detail work of other contractors and shall notify the Architect/Engineer/County immediately of lack of progress or defective workmanship on the part of other contractors. Failure of a contractor to keep informed of the work progressing on the site and failure to give notice of lack of progress or defective workmanship by others shall

be construed as acceptance by the Contractor of the status of the work as being satisfactory for proper coordination with its own work.

26. ARCHITECT/ENGINEER'S AUTHORITY

26.1 The Architect/Engineer/County shall give all orders and directions contemplated under this Contract and specifications, relative to the execution of the work. The Architect/Engineer/County shall determine the amount, quality, acceptability, and fitness of the several kinds of work and materials which are to be paid for under this Contract and shall decide all questions which may arise in relation to said work and the construction thereof. The Architect/Engineer/County's estimates and decisions shall be final and conclusive, except as herein otherwise expressly provided. In case any question shall arise between the parties hereto relative to said contract or specifications, the determination or decision of the Architect/Engineer/County shall be a condition precedent to the right of the Contractor to receive any money or payment for work under this Contract affected in any manner or to any extent by such question.

26.2 The Architect/Engineer/County shall decide the meaning and intent of any portion of the specifications and of any plans or drawings where the same may be found obscure or be in dispute. Any differences or conflicts in regard to their work which may arise between the Contractor under this Contract and other Contractors performing work for the County shall be adjusted and determined by the Architect/Engineer/County.

27. STATED ALLOWANCES

27.1 It is understood that Contractor has included in its proposal for the Contract sum all allowances including "Allowed Materials" The Contractor shall purchase the "Allowed Materials" as directed by the County on the basis of the lowest and best bid of at least three competitive bids. If the actual sum for purchasing the "Allowed Materials" is more or less than the "Cash Allowance," the Contract sum shall be adjusted accordingly. The adjustment in contract price shall be made on the basis of the purchase price without additional charges for overhead, profit, insurance or any other incidental expenses. The cost of installation of the "Allowed Materials" shall be included in the applicable sections of the Contract Specifications covering this work.

28. USE OF PREMISES AND REMOVAL OF DEBRIS

28.1 The Contractor expressly undertakes at its own expense:

- A. to take every precaution against injuries to persons or damage to property;
- B. to store its apparatus, materials, supplies and equipment in such orderly fashion at the site of the work as will not unduly interfere with the progress of its work or the work of any other subcontractors;
- C. to place upon the work or any part thereof only such loads as are consistent with the safety of the portion of the work;
- D. to clean up frequently all refuse, rubbish, scrap materials, and debris caused by its operations, to the end that at all times the site of the work shall present a neat, orderly

- and workmanlike appearance;
- E. before final payment to remove all surplus material, false-work, temporary structures, including foundations thereof, plant of any description and debris of every nature resulting from its operations, and to put the site in a neat, orderly condition.
- F. to effect all cutting, fitting or patching of its work required to make the same to conform to the plans and specifications and, except with the consent of the Architect/Engineer/County, not to cut or otherwise alter the work of any other Contractor.

29. QUANTITIES OF ESTIMATE

- 29.1 Wherever the estimated quantities of work to be done and materials to be furnished under this Contract are shown in any of the documents including the proposal, they are given for use in comparing bids and the right is especially reserved except as herein otherwise specifically limited, to increase or diminish them as may be deemed reasonably necessary or desirable by the County to complete the work contemplated by this Contract, and such increase or diminution shall in no way void this Contract, nor shall any such increase or diminution give cause for claims or liability for damages.

30. LANDS AND RIGHTS-OF-WAY

- 30.1 Prior to the start of construction, the County shall obtain all lands and rights-of-way necessary for the carrying out and completions of work to be performed under this Contract.

31. GENERAL GUARANTY

- 31.1 Neither the final certificate of payment nor any provision in the Contract Documents, nor partial or entire occupancy of the premises by the County, shall constitute an acceptance of work not done in accordance with the Contract Documents or relieve the Contractor of liability in respect to any express warranties or responsibility for faulty materials or workmanship. The Contractor shall remedy any defects in the work and pay for any damage to other work resulting therefrom, which shall appear within a period of one (1) year from the date of final acceptance of the work unless a longer period is specified. The County will give notice of observed defects with reasonable promptness.

32. PROTECTION OF LIVES AND HEALTH

- 32.1 The Contractor shall exercise proper precaution at all times for the protection of persons and property and shall be responsible for all damages to persons or property, either on or off the site, which occur as a result of its prosecution of the work. No officer, employee, architect, attorney, engineer or inspector of or for the County who is authorized in such capacity and on behalf of the County to exercise any legislative, executive, supervisory or other similar functions in connection with the construction of the project, shall become directly or indirectly interested personally in this Contract or in any part thereof, any material supply contract, subcontract, insurance contract, or any other contract pertaining to the project.

35. USE AND OCCUPANCY PRIOR TO ACCEPTANCE BY COUNTY

- 35.1** The Contractor agrees to the use and/or occupancy of a portion or unit of the project before formal acceptance by the County, provided the County:
